

# INFORMATION E-MAIL FROM IAMAS BUREAU

March, 2012

## CONTENTS :

- a) DACA-13 announcement
- b) Call for applications to IUGG Grants programme 2012-2013
- c) Reminder to visit the IAMAS Web site
- d) Information welcome for the IAMAS information e-mails
- e) IAMAS -related meetings occurring during July-August

-----

### a) DACA-13 Announcement and actions from the commissions

For DACA-13 over 40 symposia have been suggested by scientists from IAMAS-commissions and from IACS who are willing to lead the groups of conveners for each symposium. At the moment the Scientific Programme Committee (SPC), chaired by Michael LEHNING of SLF in Davos, is working on a consolidated list with the aim enhance coherency and to minimize overlap.

Members of the SPC are communicating with the lead conveners and the final list of symposia will be posted soon on :

<http://www.daca13.org/>

-----

b) This is just a short reminder for those of you who would like to apply for the IUGG Grants Programme 2012-2013. Please note carefully the attached guidelines and that applications have to be channeled through our SG [Hans.Volkert@dlr.de](mailto:Hans.Volkert@dlr.de). Therefore we have to receive your application by 28 March 2012, prior to the IUGG deadline (1 April) for a brief review. Endorsing support by another IUGG-association is considered as valuable. A list of previous grants is given at the bottom of <http://www.iugg.org/programmes/grants2011.php>

-----

### c) IAMAS Web site

Please remember to visit the IAMAS Web site at:

<http://www.iamas.org/index.html>

where a lot of useful information is included and which is updated regularly

-----

### d) Send us information for our information e-mail or web site

Please send us any information on upcoming meetings and activities from your Commission that you'd like to advertise.

We'd be happy to include in our newsletter (published twice a year) or in our informational e-mails to be sent out to commissions every month or so.

e) IAMAS -related meetings occurring during July-August (with various approaching deadlines)
